Upon finally looking into TV’s Baywatch

& a chase of nutzy
girl by one piece

bathing suit blonde in
Kmart flipflops, who, there-

fore couldn't run fast,
remaining terrific-

ally erect, too, so her tits
wouldn't plop out:
a super-abundance

of forces & stresses.
It's fuckin physics, then!

Of some matter,
nitpickers.

Pray, be silent in
your Dairy Queens.
